

I am writing in regard to the LPFM proposal. This could effect my one station that my family listens to- K-LOVE. This station is just what it says- positive and encouraging and safe for the WHOLE family!! What a lost to our community if we did not have the choice of this station. Our family supports this station monthly and I believe strongly that it is changing lives. It is so nice that families across the country have the choice of this family friendly programming when so much of what is on the radio is trash. Thank you for your time.
